

A Wonderful Dirt-Starter

SUNNY MONDAY Laundry Soap is kind to the clothes because it contains a marvelous *dirt-starting* ingredient which drives out the dirt in an all but magical way—saves most of the rubbing and saves your clothes.

Sunny Monday is a white soap, made from high-grade materials—choice fats and vegetable oils. It contains no rosin. All yellow laundry soaps contain rosin, and the majority of them are made from cheap tallow and refuse grease. **Sunny Monday's** whiteness is proof of its purity.

Try **Sunny Monday** next wash day and you'll never use any other laundry soap.

THREE WERE KILLED.

Bad Freight Wreck on the New York Central Railroad.

Rome, N. Y., Jan. 19.—Three men were killed and one badly injured in a freight wreck on the New York Central railroad at Oneida yesterday.

As an eastbound freight was passing the station, the engine that is used to push heavy trains up the grade east of the city came off the siding and collided with the freight about the middle of the train, which was thus broken in two and the wreck scattered all over four tracks.

Just at that time a fast freight running west came along and crashed into the wreck. Engineer William Douglas of Albany, fireman Edick and brakeman Hildreth of East Syracuse, all of the fast freight, were killed.

Patrick McGinnis, the gate-tender at a crossing, was struck by one of the flying wreckage and so badly hurt that he was compelled to go off duty.

INDIANA FOR INCOME TAX.

State Senate Passes Amendment, and House Will Probably Follow.

Indianapolis, Ind., Jan. 19.—The joint resolution for the ratification of the proposed income tax amendment to the federal constitution has been adopted by the Senate, 48 to 1. The resolution did not provoke any discussion, though a number of the members sounded their constituency while at home over Sun-day and found many of the business men opposed to it. Many letters are reaching members of the House, asking them to vote against the amendment, but there is little prospect now of heading off the rush to adopt it. The Republicans appear to think that there will be capital in its adoption for the Democrats if they do not assist with their votes, and this is making the support practically unanimous.

Curtailment Proposed.

Boston, Jan. 19.—A curtailment of the production of cotton cloth of 25 per cent, was recommended at a meeting of the Arkwright club here yesterday afternoon. The Arkwright club is an organization of treasurers representing most of the cotton mills in the New England states and the majority of the cotton factories in the country.

AN UNUSUAL ACCIDENT.

Forehead of Theatre Spectator Pierced by Sword Flying from Stage.

Hamilton, Ont., Jan. 19.—Robert Shiverick, son of a wealthy American, who came here recently from Harvard university, was probably fatally injured in the grand opera house last night.

Several soldiers were on the stage in a fencing scene. The blade of one of their long swords left the handle and shot over the footlights. The point struck young Shiverick squarely in the center of the forehead. It penetrated his skull and remained imbedded.

DELAWARE ARRIVES.

Battleship on Which Accident Occurred Drops Anchor.

Old Point Comfort, Va., Jan. 19.—The battleship Delaware dropped anchor off Fortress Monroe early yesterday, the storm abating at daylight, making it possible for the vessel to enter Hampton Roads.

As soon as the ship was sighted coming in, the tug Mohawk was sent out from the Norfolk navy yard to meet her. The Mohawk will bring ashore the eight men who died at their posts aboard the Delaware Tuesday in a boiler room explosion at sea.

Upon the arrival of the tug at the yard, preparations will be made to ship the bodies to relatives where requests have been made. Those not shipped will be buried in the Norfolk naval cemetery with full honors by their comrades.

The body of Laurence A. Thomas, the victim of the explosion whose identity was not established in Tuesday's dispatches, probably will be shipped to his mother in Little Rock, Ark.

AGAINST COAL STRIKE.

Miners' Leader Says Continuance in Irwin Field Is a Waste of Money.

Columbus, Jan. 19.—The United Mine Workers of America yesterday listened to the annual address of President Tom L. Lewis, who commenced his address soon after the convention was called to order at Memorial hall. Much interest was shown in his declaration regarding the strike in the Irwin field in Pennsylvania and somewhat of a commotion was occasioned by his announcement that it is a waste of money to continue the strike under present conditions. This declaration was taken as a criticism of President Feehan of the Pittsburgh district. President Lewis declared that the strike in the Irwin district of Pennsylvania has cost the organization \$320,000 and was ended without even consulting the national officers. The amount paid out in support of strikes for the last ten years amounted to \$8,089,956.10, it is said. "I am still of the opinion that a charter should be granted to the Western Federation of Miners," he added.

UNCLE SAM TAKES HAND

In "Rate Regulation" in the Panama Canal Zone.

Washington, D. C., Jan. 19.—Uncle Sam is going to take a hand in rate regulation in the canal zone and without an interstate commerce commission too. It developed at the office of the isthmian canal commission that the administration of the canal zone is to issue a schedule of coach rates in the zone. The new rates will apply to any horse, mule, or motor vehicle along the canal engaged in carrying passengers for hire. A penalty of \$25 is to be imposed in case of any violation of the new regulations.

PREPARING FOR HOME RULE

This Is a Step in Home Rule Measure.

Lord Courtney, Unionist, Says That the Step Is Surely Coming.

Dublin, Ire., Jan. 19.—Yesterday's Independent says that the government will appoint a commission to investigate Irish finances, with a view to establishing home rule, and will appoint a committee of the cabinet to frame a home-rule measure. Lord Courtney of Pauw has written to Thomas Sexton, chairman of Freeman's Journal company, saying that the time has come to recognize the facts of the matter and prepare for home rule. The writer, though rated as a Liberal, has been a Unionist in Irish matters, and heretofore opposed to home rule. In his letter he describes himself as a Unionist. He proposes a plan to insure the representation of all elements in the assembly by dividing the country between two or three constituencies, each electing five members; and a group of constituencies, each returning three members.

JURY JUSTIFIED

THE LONDON POLICE

Favors Severity Toward Criminal Aliens.

Churchill in the Witness Box.

London, Jan. 19.—The inquest on the death of the two desperadoes who perished in their Sidney street home while resisting the police and military was concluded yesterday. The verdict was that the man known as "Jose" was shot to death, the victim of justifiable homicide, and that his companion, known as "Fritz" died of suffocation.

The jury added a rider, declaring that the fact that such an extraordinary occurrence was possible should lead to the framing of more stringent measures for dealing with criminal aliens arriving in this country.

Home Secretary Churchill appeared in the witness box with the object of refuting some of the stories of his assumption of the office of commander-in-chief of the forces engaged in the battle.

He declared that the troops were on the spot before he had heard that a fight was in progress. He denied that he overrode or directed the police, who, he said, had an absolutely free hand. He thought that the action of the police in restraining the firemen from attacking the flames after the house had been fired was humane and perfectly justifiable under the circumstances.

24 TO DIE FOR MIKADO PLOT

Two Others Get Terms in Bill Planned, the Report, by Asquith

DRAMATIC SCENE IN COURT TO INVESTIGATE FINANCES

Plan to Upset the Government, Says Judge—The Growth of Socialism and Anarchy in Japan.

Tokio, Japan, Jan. 19.—Twenty-five men and one woman, charged with conspiracy against the crown prince and high officials of the empire, yesterday were publicly sentenced by the supreme court.

Twenty-four of the prisoners, including Denjiro Kotoku, who once lived in America, and his wife, were condemned to death.

The other two were sent to prison, one for 11 years and the other for eight years.

The trial had been secret but the final dramatic scene was witnessed by the diplomats and many prominent Japanese. When the sentence had been pronounced, one of the doomed men rose and shouted, "Banzai." At this all of the prisoners sprang to their feet and Kotoku, raising his hands above his head cried, "Long live anarchy!"

The prisoners then turned quietly to their guardians and were again handcuffed and led away.

In pronouncing sentence the chief justice read a long statement in which he declared that the trial had proved beyond doubt that Kotoku and his associates plotted a violent revolution by means of explosives and deadly weapons. They intended to plunder the wealthy, burn the government offices, assassinate the high officials, attack the imperial palace and attempt the life of the crown prince.

The prisoners accepted their fate smilingly. In leaving the court Madame Kotoku bowed to the spectators and said: "We pardon all of you."

It is impossible to secure a reliable opinion as to the probability when the death sentences will be promulgated, but it is thought possible that imprisonment for life may be substituted for the capital penalty.

Kotoku, who was formerly connected with a Tokyo newspaper and at one time lived in San Francisco, where he is said to have been associated with a political organization, was the alleged leader of the plot discovered last September. All of the prisoners were first arraigned before a special court, the duties of which are similar to those of a grand jury in America. On Nov. 9, this court announced that the prisoners had been found guilty and recommended that they be punished under a law which provides capital punishment for plotters against the imperial family.

The wife of Kotoku was the only woman in the band.

The trial proper opened in the supreme court on Dec. 10.

The public was excluded on the ground that publicity in connection with the proceedings might be prejudicial to peace and the maintenance of public morality.

NEW RATES AGAIN DELAYED.

Western Increases Held up by Commerce Commission Till March 15.

Washington, Jan. 19.—Further suspension of the general advances in freight rates by the Western Truck Line association will be made to-day. The interstate commerce commission has suggested that the rates be suspended from February 1 until March 15. There is no doubt the suggestion will be accepted by the western carriers, as it was by the eastern carriers, in order to afford the commission adequate time for consideration of the case. At the beginning of the arguments in the western case yesterday, announcement was made by the carriers that the matter had been taken up with the officials of the various roads.

JUDGE BOND VERY ILL.

Little Hope for Man Who Presided at the Leblanc Trial.

Waltham, Mass., Jan. 19.—Judge Daniel W. Bond of the Massachusetts superior court is critically ill with a complication of heart and kidney troubles at his home on Linden street, this city. Judge Bond, who is of advancing years, was taken ill about three weeks ago with an attack of grippe.

He gradually became worse and Tuesday a consultation of physicians was held to consider his case. It has been decided the jurist was suffering from diabetes and heart weakness, and the physicians said that his condition was most critical, with the chances against his recovery. Yesterday morning there was no improvement in his condition.

Judge Bond's last important court assignment was as presiding justice at the trial of Frankie LeBlanc, the Cape Breton girl, who was acquitted of the murder of Clarence F. Glover, after a sensational trial.

This Will Stop Your Cough in a Hurry

Save \$2 by Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready-made for \$2. It is no better remedy can be had at any price.

Mix one pint of granulated sugar with one pint of water. Boil for 30 minutes. Put 2½ ounces of Pinex (dry cents worth) in a pint bottle; then add the warm water. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, bronchitis, asthma and all throat and lung troubles.

The effect of pine on the membranes has been known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in quinine and all the natural healing elements. Other preparations will not work in this formula.

This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

The Sirolin Sentinel

Sirolin (Pronounced Sir-o-lin): The celebrated Swiss remedy for coughs and colds.

BARRE, THURSDAY, JAN. 19, 1911.

How to Cure a Cold

The inner surface of your lungs is a delicate mucous membrane, thinner than the finest tissue paper. Behind these fragile walls the blood circulates and meets the air as it is inhaled.

A deep-seated cold affects this delicate lung surface. Such a cold almost invariably leaves the lungs in a weakened condition, and this, combined with a lowered general vitality, turns them into a favorable settling ground for the tubercle bacillus—in plain English, the Consumption germ.

This, in a few words, is the history of the beginning of Consumption in nine-tenths of the half-million or more cases in the United States.

That's why you should never let an ordinary cold run unchecked.

Before it is through with you, it may be the cause of your death.

This sounds alarming, but it is plain truth. A cold by itself cannot cause Consumption, because that dread plague is a germ disease—and the germ must find lodgment in the lungs before consumption can begin. We all breathe in millions of these germs every day, but our lungs are strong enough to throw them off.

But—Lungs weakened by a deep-seated cold are not able to throw off the invading

bacilli—and the result is that the most formidable of diseases has another victim.

This being so, you should treat every cold as being full of deadly possibilities. Treat it at once with Sirolin—which your druggist has—and, no matter whether it is slight or deep-seated, remember that the most obstinate and distressing cold rapidly yields to its influence.

Sirolin dispels the peculiar and well-known

symptoms experienced in the head and the respiratory organs, and does it by healing the surfaces affected by the cold. The curative action is vigorous, and so much so that if a few doses are taken early in the attack its severity is at once diminished and its duration greatly reduced.

Obviously, after this treatment there can be no after-

effects of a disease character and it follows that consumption seldom ensues upon a cold treated with Sirolin.

Children like Sirolin, because of its pleasant taste.

Sirolin relieves the distress of coughing almost immediately.

La Grippe is conquered by Sirolin. It relieves all the disagreeable symptoms quickly, and effects a cure in a few days.

Sirolin is the celebrated Swiss remedy for coughs and colds.

Sirolin is a physician's remedy—not a patent nostrum—and it is known the world over by leading medical men.

Sirolin not only relieves the local symptoms and protects the tissues against the invasion of the tubercle bacillus, but—in addition to this—it promotes appetite, increases weight, and acts as a tonic.

Its creation and use throughout the world marks a distinct advance in the treatment of coughs, colds and other pulmonary affections. Sirolin is clear, syrupy liquid—pleasant to the taste.

Your druggist knows about it. Ask him for it.

Sirolin contains no morphine, codeine, habit-forming or constipating drug

THE SIROLIN COMPANY, 365 & 367 Canal Street, New York

PREMIER'S WIFE TIPS CLIMBERS

Usually the Passport to the Best Society.

London, Jan. 19.—Society is all agog over the testimony given in court Tuesday by Mrs. Asquith, wife of the prime minister, who was the star witness in the hearing of the suit of Mrs. Horace West against her father-in-law, Sir Algernon West, who is charged with slander.

Mrs. Asquith started the court by saying, "Extravagance is usually the best passport to the ranks of high society."

Counsel for Mrs. West wanted Mrs. Asquith to qualify as an expert, but the court decided that was not necessary.

Mrs. Asquith admitted when under cross-examination that extravagance served as a passport only when there was nothing alleged or suggested against the woman.

Mrs. West charges that she was slandered when Sir Algernon told various members of English society that his daughter-in-law was responsible for the separation from her husband, thus causing Mrs. West to be cut socially and her name to be stricken from the court list.

MRS. SCHENK COLLAPSES.

Trial Temporarily Suspended for the Day.

Wheeling, W. Va., Jan. 19.—Mrs. Laura Farnsworth Schenk collapsed yesterday under the ordeal of the trial in which she is charged with administering poison to her wealthy husband, John C. Schenk. An hour before the usual time for adjournment, she had to be led to her room in the jail, and the trial was temporarily suspended.

Throughout the trial, and since Mrs. Schenk's arrest on November 9, she has displayed a calm that has been repeatedly remarked upon. When apparently damaging testimony was being offered against her, it failed to disturb her.

Nothing of a startling nature was brought out in court yesterday, only physicians being examined, but Mrs. Schenk had not been looking well all day and suddenly toward the closing hours she leaned over to Frank O'Brien, one of her attorneys, and asked him to get her a glass of water. It was but a few minutes before she said to another

attorney, "For God's sake, get a few minutes' recess."

The request was granted and Mrs. Schenk was taken to the county jail, where she became violently nauseated and showed symptoms of fainting. It was fifteen minutes before she was able to return to the courtroom, and she was weak and nervous during the short interval between her return and adjournment. Twice during the afternoon she wept, and her handkerchief has kept constantly to her eyes.

Attorney O'Brien, chief counsel for the defense, said last night:—

"The attack was nothing serious. The court room was simply stuffy, the woman was annoyed by the constant stare day after day of hundreds of curious people, and she became unmoved by the strain. She is not worried at the outcome of the trial and will be all right later."

RUSSIAN TOO STRONG.

But Henry Ordeman Gave Hackenschmidt a Hard Bout.

Minneapolis, Minn., Jan. 19.—Completely worn out by the greater strength of his opponent, Henry Ordeman of Minneapolis was Tuesday night defeated in the most thrilling wrestling match this city has seen, George Hackenschmidt, the Russian lion, winning two falls from him.

The first fall took two hours and 37½ minutes. Hackenschmidt gained it by slamming his fatigued opponent to the mat and lying on him.

The second fall took but two and one-half minutes. Hackenschmidt picking up the local man and throwing him in much the same manner as in the first fall.

The bout was the main event of a long card and lasted until close upon 2 o'clock.

Ordeman was clearly the more skillful and displayed great ability on the defensive, but his physique was not equal to the muscular power of the Russian.

ELY'S FEAT.

Aviator Landed on Cruiser's Deck and Flew Away Again.

San Francisco, Jan. 19.—Aviator Eugene Ely made a successful flight yesterday from Seldridge field, 12 miles south of this city, to the deck of the cruiser Pennsylvania, anchored in San Francisco bay.

At 11:58 Ely left the ship on his return flight. He made a fine get-away and flying at great speed was soon lost to view in the haze.

Ely returned to Seldridge field at 12:12 o'clock, having been absent from the grounds about an hour and a half.

Doctor Harris Dead.

Boston, Jan. 19.—Dr. Francis A. Harris, for many years medical examiner of Suffolk county, died at his home in Winthrop yesterday of paralysis. Dr. Harris was born in Ashland March 3, 1845. During the years that he held the position he gained a wide reputation in many criminal trials. After the conviction of Charles L. Tucker of Auburn for the murder of Mabel Page of Weston, seven years ago, Doctor Harris issued a statement in which he expressed the opinion that Tucker was innocent, although previously his testimony as an expert was unfavorable to the defendant.

Dandarine

GROWS HAIR and we can PROVE IT!

A lady from Minnesota writes: "As a result of using Dandarine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knewlton's Dandarine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Dandarine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the

KNEWLTON DANDARINE CO., CHICAGO, ILL., with their name and address and 10c in silver or stamps to pay postage.

Health For Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Coloma, Wisconsin.—"For three years I was troubled with female weakness, irregularities, backache and bearing down pains. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking several bottles I found it was helping me, and I must say that I am perfectly well now and can not thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me."

—Mrs. John Wentland, R. F. D., No. 3, Box 60, Coloma, Wisconsin.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.
